

MADE at the City of Calgary, in the Province of Alberta, on  31st day of May 2006.	 ALBERTA ENERGY AND UTILITIES BOARD
EPCOR Distribution Inc. 2005/2006 Distribution Tariff Phase II Refiling	Application No. 1463276

EPCOR Distribution Inc. (EDI) filed Application 1463276 (the Phase II Refiling) with the Alberta Energy and Utilities Board (the Board) on May 30, 2006.

The Phase II Refiling was filed in response to the Board's Order in Decision 2006-050<sup>1</sup> that:

EPCOR Distribution Inc. refile, by May 30, 2006, Distribution Tariff Rate Schedules and Terms and Conditions and rate comparison schedules that are appropriate to reflect the Board's findings in this Decision and are in a form suitable for attachment to a Board Order. The Board intends to approve the refiled Rate Schedules and Terms and Conditions effective July 1, 2006, in an Order to be issued on May 31, 2006.<sup>2</sup>

In the Phase II Refiling EDI indicated that it had complied with the Board's directions in Decision 2006-050.

As the Board indicated in Decision 2006-050, for efficiency, the Board will deal with any concerns regarding EDI's Phase II Refiling concurrently in the process that the Board sets up to deal with the Phase I Refiling in regard to Application Nos. 1389884 and 1389885.

The Board recognized in Decision 2006-050 that further adjustments will be required to EDI's tariff to reflect any changes in EDI's revenue requirement that arise from the Board's determinations in regard to the Phase I portion of EDI's 2005-2006 DT Application (Application No. 1389885). The Board directed EDI, in Decision 2006-050, to clearly set out an appropriate rider to adjust the rates EDI provides in the Phase II Refiling to appropriately reflect any such adjustments when it files the Phase I Refiling arising out of the Board's Phase I Decision due out later this spring.

Appendix 6 attached to this Order provides rate comparisons of the rates to be in effect July 1, 2006 to current rates.
